

# FINSBURY WATER PUMP

B3HD-MM/SS WATER TRANSFER PUMP

Whether you're pumping water across rugged terrain or managing demanding transfer operations, the Magnum Finsbury B3HD-MM/SS is your reliable partner in performance and is also ideal for water trucks.

**Engineered Tough  
Built Smarter**

**High Performance  
Low Maintenance  
Total Confidence**

## Magnum Australia's FINSBURY PUMP SYSTEMS

### *Pumps for Life.*

**Introducing the New B3HD-MM/SS Water Transfer Pump.**

***Engineered for Extreme Performance & Built to Last.***

Magnum Australia's Finsbury Pump Systems proudly unveils the newly upgraded B3HD-MM/SS, a heavy-duty water transfer pump specifically developed to meet the demands of higher-duty applications in mining, construction, industrial, and agricultural sectors.

Designed with durability and efficiency in mind, the B3HD-MM/SS delivers superior flow performance of up to 27 litres per second and heads of up to 70 metres — all while maintaining self-priming capabilities to 7 metres.

- **Heavy-Duty Rubber-Lined Bearings**

Designed for longevity, the bearings are rubber-lined and protected with dust-retarding oil lip seals to withstand harsh environments and reduce maintenance.

- **Improved Mechanical Seal Technology**

Enhanced for higher pressure operations, ensuring a longer operational life and reduced downtime.

- **Robust 431 Stainless Steel Shaft**

Tougher and more resilient than ever before, this upgraded shaft offers enhanced strength and corrosion resistance under demanding conditions.

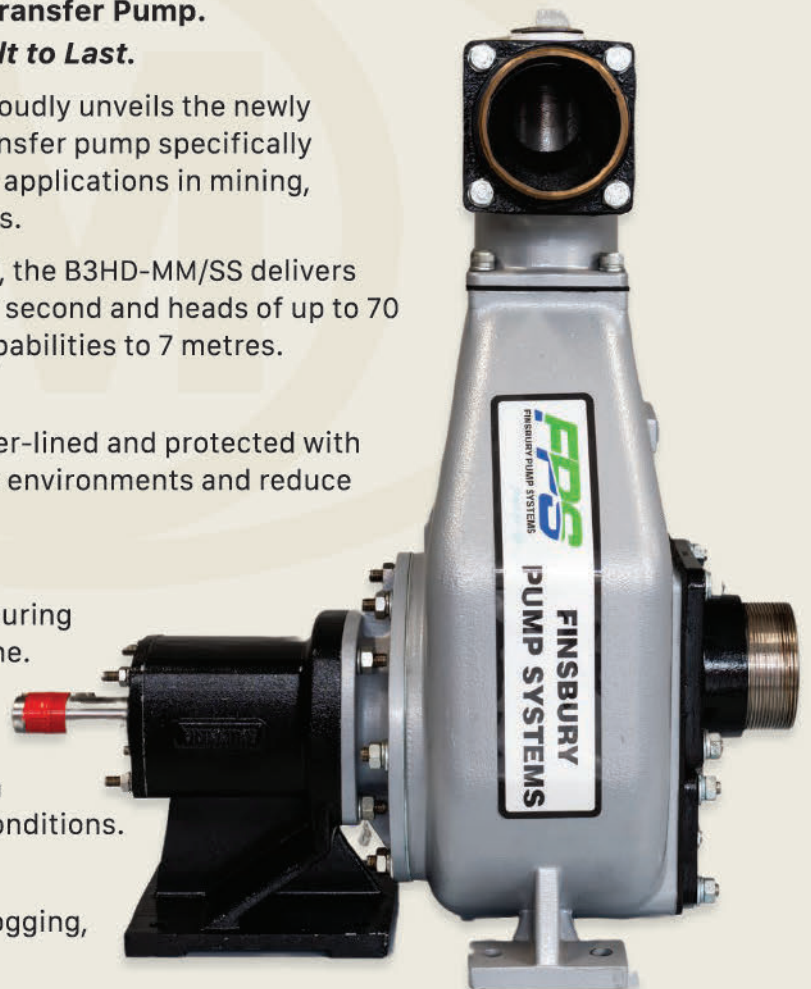

- **304 Stainless Steel Open Impeller Design**

Optimised for solids handling and reduced clogging, ensuring smooth, uninterrupted flow.

- **304 Stainless Steel Fabricated Suction & Discharge Ports**

Built to resist corrosion and endure aggressive fluids, providing strength and reliability where it counts.

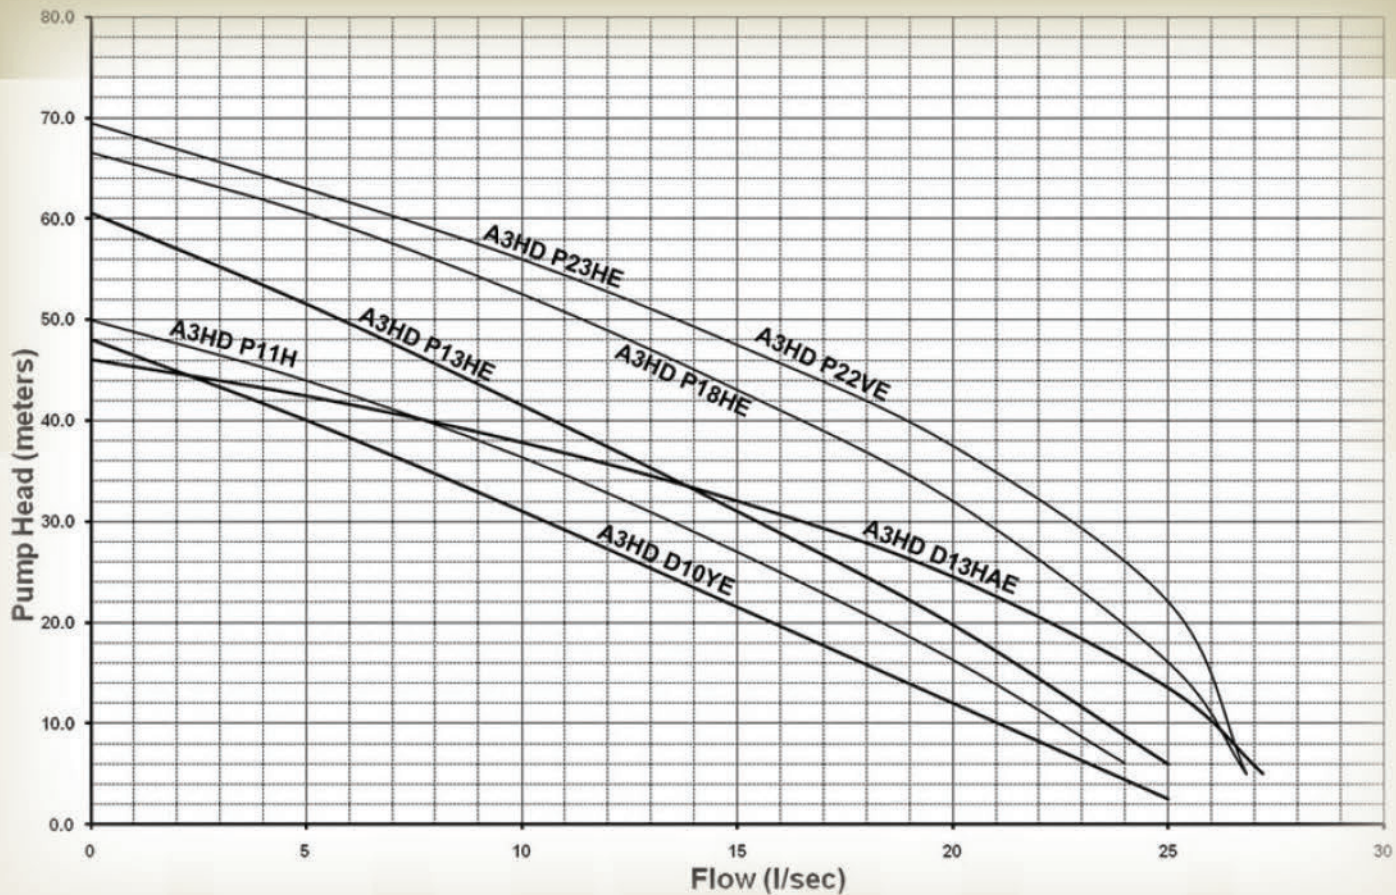

- **Suitable for Close Coupled Petrol/Diesel engines**

***Other Model Sizes available - Please enquire***
