Magnum Australia's HOSE REELS

Engineered Strength. Precision Flow. Total Reliability.

At Magnum Australia, we understand the demand for dependable hose reel solutions across heavy-duty, industrial, and field service environments. That's why we've developed a superior range of Full Flow Hose Reels, purpose-built to deliver strength, performance, and versatility in every application.

Available in Sizes to Suit Every Application

- ¾" Hose Reels (30m)
- 1" Hose Reels (20m)
- 1½" Hose Reels (18m)

Three Configurations to Suit Your Needs

1. Electric Motor 24V-120W (Belt Drive)
 - Effortless retraction with smooth, controlled operation
2. Spring Rewind – Reliable and automatic hose return for high-usage sites
3. Manual Rewind – Simple, effective, and ideal for lower volume use or remote area
4. Plastic Nozzle included. Optional brass nozzles available.

Overall Dimensions:
W:460mm x H:580mm
Spool Only Diameter 450mm

Why Choose Magnum Hose Reels?

- **Full Flow Design** – Delivers maximum water or fluid flow with minimal restriction
- **Lightweight & Strong** – Designed for portability without compromising strength
- **Versatile Use** – Perfect for washdown bays, firefighting, water trucks, mining, agriculture and more
- **Australian Designed & Supported** – Built to meet the standards of our demanding industries

Built for Performance. Ready for Anything.

Magnum Hose Reels are a trusted solution wherever performance, longevity, and reliability are non-negotiable. Whether you're outfitting a water cart, equipping a plant washdown bay, or managing fluid transfer systems - Magnum delivers hose reel solutions that last.
